POLICE SHAKE-UP

Rumor Around Four Courts Is Persistent Anent Changes in Official Circles Shortly.

NEW CHIEF IS POSSIBILITY.

Desmond or Gillaspy May Succeed Mathew Kiely in Office-Captain McNamee Is Also One of Those Mentioned.

Speculation, due to the persistent rumor that there is to be a change in the head of the Police Department on the first of the month, is rife as to who will succeed. Chef Kiely. That there will be a shake-up in police gircles on the first of the month no one seems to doubt, and around the Four Courts gossip has it that Chief Kiely will lose his official head, and the wise ones are trying to "pick a winner." Many heads of departments have been named by the wise ones, but Night Chief Gillaspy and Chief of Detectives Desmond seem to be the two men, according to those who are attempting a forecast, whose chances for the big chair seem the best. Many other men prominent in police droles afts down to Desmond and Gillaspy.

Desmond and Gillaspy entered the force on the same day, May 26, 1876. Both men proved efficient officers, and they continued to rise, through meritorious service, until to-day they fill two of the chief positions in the department. Some time ago, it is said, Chief Desmond had the office of Chief of Police tendered to him, but he rejected it, thinking that he was better qualified to act as Chief of the Detective Bureau than as chief of the department.

ment.
Captain George T. McNamee, who has charge of the mounted district, is also named as a man who may fill Klely's shoes. Captain McNamee has been in the force a number of years, and has borne a good name for efficiency. Another prominent name mentioned is that of Captain Peter Reynolds, who has charge of the Central District. Captain Reynolds has been in the aervice more than twenty-five years, and, through his duties at the central office, he is conversant with the duties of a chief of police. Captain James Johnson of the Fourth District, and Captain Milliam Youns of the Third are also mentioned.

The score at the end of the first half was 32 to 6.

McKinley High has suffered defeat but once this meason, when she was heaten by Central High. McKinley has beaten Smith Academy, which plays Central in what has hereiofore been the big game of the Interscholastic League. If Central High defeats Smith, it will have an undisputed claim to the "prep" school faothall championship of St. Louis. If Smith wins, there maye be a postscason game between the red and white team and McKinley to settle the question of supremacy McKinley has a rattling fast team.

New York Life Vice President Will Be Placed on Stand This Week - Hughes Resents Attempt to "Hoodwink" Him.

REPUBLIC SPECIAL.

New York, Nov. 25.—George W. Perkins, vice president of the New York life insurance Company, and partner of J. Pierpont Morgan, refused to-day to add anything to the brief statement given out by him yesterday evening after he had perused a complete transcript of the evidence given by his subordinate, Milton M. Mattison, under oath, before the Armstrong investigating Committee, in which he said that everything would be satisfactorily explained when he was again permitted to testify.

It is believed that the wish therein expressed by Mr. Perkins that he be allowed to clear up all these transactions will be speedily gratified.

Mr. Hughes resents the company's apparent attempt to "hoodwink" him and the committee by presenting to it an incomplete account of syndicate transactions and he shares the feeling of Mr. Perkins that hiere are various things that call for a speedy explanation.

MAY TESTIFY MONDAY.

MAY TESTIFY MONDAY. MAY TESTIFY MONDAY.

It is likely, therefore, that Mr. Perkins may have the opportunity on Monday to testify again, or, at least, at as early a day as may suit his convenience. It is understood that Edmund D. Randolph, treasurer of the New York Life, and Augustus G. Paine, a member of its Board of Trustees, to whom Mr. Perkins allotted a \$5.000 share in the company's \$2.00,000 participation in the United States Steel syndicate, also will have the privilege of explaining to Mr. Hughes some things which Mr. Mattison was unable to clear up.

which Mr. Mattison was unable to clear up.
Mr. Randolph will probably have to explain just why records of payments involved in this syndicate transaction were not to be noted in the minutes," and why instructions to that effect were written in his handwriting and over his inflials, as has been testified. Both he and Mr. Perkins are likely to be asked why expenditures for "furniture and rugs" were charged in the company's books against the syndicate profits, and Mr. Perkins will be invited to tell what he did with the Siegeo interest, profits from a New York Life loan, which profits. Mr. Mattison says, he turned over in cash to Mr. Perkins, and which does not appear to be recorded in the company's books.
